

# Integrated Paperless Efficiency

Save time and money with i<sup>2</sup>Check21. Eliminate labor-intensive cost and improve long-term research capability. Image encryption ensures that your customer data is securely held.

## **Branch Capture**

Streamline the workflow for your Financial Institution with check image capture, transaction balancing, repair and clearing. IBT's Branch Capture solution eliminates the need for branch microfilming and enhances image-based workflow with "early entry" of check images into the payment processing system.

## **i<sup>2</sup>FraudStop**

Prevent fraud before it even happens! IBT's i<sup>2</sup>FraudStop helps your institution stay ahead of perpetrators by monitoring suspicious behavior, analyzing data to identify new patterns, refining fraud-alert systems and efficiently managing potential fraud cases – from detection through notification of the authorities.
