

Our Vision for a Paperless Future

i²Docs securely captures, encrypts and stores paper and electronic documents. Any document or paper that you currently save and file can be scanned and stored within IBT's i²Docs.

Features & Benefits

With IBT's document templates you can predefine the location to which all documents are stored, be it the CIF, account or department level. IBT also offers your institution the ability to drag and drop documents, images, email and email attachments into any file at any time. IBT offers you storage without placing limitations on users by allowing all storage and documents in one centralized user-friendly database that can be accessed by all branches.
